

#### **APPLICATIONS**

- Live sound PA system or Live sound monitor, DJ system
- School and corporate audio visual sound reiforcement
- Background music/announcement: Restaurants, Pubs
- Transportation terminals, Clubs, Auditorium, Theatres Gyms, Houses of worship

### **FEATURES**

- · 2-way bi-amplified bass reflex design cabinet
- Sturdy gas-injected polypropylene molded enclosure
- 600W RMS LF, 300W RMS HF, class D power amplifiers
- 12" B&C neodymium woofer with 3" voice coil
- 1" throat exit B&C neodymium compression driver with 1.4" voice coil
- 90° H x 60° V constant directivity horn
- Digital signal processor with 8 eq. presets
- · Control panel with XLR in&link out, Volume, EQ preset,
- HP filter, GND lift switch
- SPL capability: 133dB
- 2 x M10 suspension points
- Dual purpose: Front of house or Stage floor monitor
- · Completely Manufactured in Italy

### PRODUCT DESCRIPTION

The FBT ProMaxX 12A two-way bi-amplified speaker system shall incorporate 1 x 12" LF neodymium magnet woofer with 3" voice coil custom made for FBT by B&C and 1" exit throat B&C neodymium magnet compression driver with 1.4" voice coil coupled to a 90°H x 60°V constant directivity horn; thanks to the asymmetrical shape also allows use as a stage floor monitor at 12°, 40°, 55°. The FBT ProMaxX 12A shall meet the following performance criteria: Frequency response of 48Hz to 20kHz, Maximum SPL of 133dB, 600W RMS + 300W RMS class D power amplifiers with switch mode power supplies. The FBT ProMaxX 12A provides a DSP with 8 factory equalization presets. The FBT ProMaxX 12A feature a sophisticated new cabinet design that increases low frequency SPL; a front face steel grille protects the woofer from external damage. The control panel provides XLR input & link out, Volume, EQ preset, HP filter and GND lift switch. The two M10 fly points built into the cabinet, along with the optional BOX 128 mounting bracket, allow the FBT ProMaxX 12A speaker to be surface mounted on walls or ceilings and a standard 1.38" speaker stand socket allows the FBT ProMaxX 12A to be mounted on speaker stands.

## **DIAGRAMS**

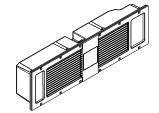

## **AMPLIFIER MODULE**

The FBT ProMaxX 12A provides a high efficiency class D power amplifier module with switching power supply enclosed in a die-cast aluminium chassis.

This provides maximum protection of the electronics from dust or dirt, prevents air loss through the input control panel that can cause fastidious noise, and it maximizes heat dissipation avoiding the use of a fan to cool the circuitry.
