■ SI-176A IP3710T

■ SI-176B IP3710

Today more and more moving heads are being exposed to wet, humid and extreme conditions. With numerous multi-environmental application requirements, Color Imagination launched an IP65 rated moving head light with CMY+CTO system.

The fixture features an OSRAM SIRUS 371W lamp delivering high lumen through a 175mm high definition optic lens that brings incredibly ultra brightness and sharp beam effect with even and clear spot image. It supports DMX, RDM (Remote Device Management). It's also for Art-Net protocol, Wireless Solution wireless system built-in. The fixture software could be updated through DMX connectors. It's available for two versions:

IP3710T integrates BEAM, SPOT and WASH in a fixture, offering a full complement of professional characteristics: linear zoom ranging from 2°to 50°, rotating gobo wheel, static gobo wheel, color wheel, 16-facet prism, 8-facet prism, frost filter,

motorized linear focus, motorized ZOOM, variable speed shutter/strobe; and mechanical dimmer, etc.

IP3710 integrates BEAM and WASH in a fixture, offering a full complement of professional characteristics: static gobo wheel, color wheel, 32-facet prism, 8-facet prism, frost filter, motorized linear focus, motorized ZOOM, variable speed shutter/strobe; and mechanical dimmer, etc.

As structure is perfectly designed with ultimate heat sink system, the IP3710 will keep itself in excellent performance in all functions even though in raining, dirty, sandy or water environment. There will be no accumulation of dust or external impact on inside components like optics, gobos, color filters or the light source. And there will be no smoke fluid or humidity gathering inside.

The IP3500's applications are unlimited. It could be placed at any outdoor environment such as fountain shows, theme park,architectural shows, live concerts, and so on.
