

ESP-130/WS

Order No.: 0161600

Price upon request

PRODUCTINFOS

These wall speakers impress by an extraordinarily flat design which is only achieved by applying the latest NEODYMIUM magnetic systems.

The ESP-130... speaker systems already provide a very pleasant and complete sound and yet, with a total depth of only 38 mm, they are of such a flat design, that they are just as unobtrusive on the wall as a flush-mount speaker.

PA wall speaker

- 100 V line technique via audio transformer with 2.5 W and 5 W power taps
- 2-way system with neodymium bass-midrange speaker and dome tweeter
- White plastic cabinet with protective metal grille
- Slimline design for unobtrusive wall mounting
